Title

I also enjoy cultural heritage “Big Mike’s chin”

Description:

“Big Mike’s chin” is an online, participatory activity designed to make cultural heritage accessible for people with different sensory and cognitive abilities.

We will travel in time to learn how we have evolved, both biologically, and in the use of technologies and arts. To do this we will use skulls, illustrations, sounds of tools and instruments. In addition, we try to imagine how we will continue to evolve in the future.

Online activity
